ASSOCIATE DEGREE NURSING
At York Technical College

The Associate Degree Nursing Program is a cooperative program between York Technical College and the University of South Carolina Lancaster and is approved by the Board of Nursing for South Carolina, Synergy Business Park, Kingstree Dr., Suite 202, Columbia, SC 29210, (803) 896-4550 or fax (803) 896-4525 and accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta Georgia 30326, (404) 975-5000 or fax (404) 975-5020, or www.acenursing.org.

The Associate Degree Nursing Program prepares men and women for the practice of registered nursing to provide direct client care across the life span. The practice of the associate degree nurse is primarily directed toward clients who have health needs and require assistance to maintain or restore their optimum state of health or support to die with dignity. The associate degree nurse is prepared to address acute and chronic healthcare needs and common well-defined healthcare problems in hospitals, long-term care facilities, and certain community health agencies.
Dear Student:

Welcome to York Technical College, and thank you for your interest in the Associate Degree Nursing program. The purpose of this information is to clarify the application process, identify the Nursing program qualification requirements, and explain how the qualified applicant waiting list is managed.

There is a great demand for medical professionals in our workforce today. Many people realize that a Nursing career would not only offer many job choices and a good salary, but it would also provide the personal satisfaction of serving and caring for others.

For these reasons, there are many students interested in pursuing the Nursing program. The Nursing program can accommodate only a limited number of students each year in order to provide the highest quality education. Therefore, the Counseling and Support Services (CASS) Department maintains a first-qualified, first-served list of students for the Nursing program. Your immediate goal should be to qualify and place your name on this list of qualified students as quickly as possible. This document will provide clear and specific instructions to help you understand exactly what you need to do from the point of application to the point of program entry.

It is your responsibility to read and understand the contents of this document. It is also your responsibility to contact a CASS Counselor or your academic advisor for assistance should you have questions or need clarification on any of the content in this pamphlet at any time during the process of qualifying and enrolling in the Nursing program.

Thank you again for your interest in and for choosing York Technical College to achieve your educational goals.

Sincerely,

Kerri McGuire
Counseling and Support Services
Director
I. The Admissions Process for the Associate Degree Nursing (ADN) Program at York Technical College

The Nursing program is limited in enrollment, and its waiting list is processed on a first-qualified, first-served basis.

2. Submit proof of high school or GED completion. Currently enrolled high school seniors who meet all other program qualification requirements are eligible to be placed on the list of qualified applicants on a provisional basis pending the submission of evidence of a high school diploma upon graduation.

3. Take the COMPASS Placement Test if necessary. Contact the Assessment Center at 803-981-7176 for scheduled testing times.

   This test may not be necessary if you submit satisfactory SAT/ACT scores or a college transcript documenting previous college credits. Contact a counselor to determine if you will need to take the COMPASS Placement Test.

4. The Counselor will review your COMPASS, SAT or ACT test scores, high school transcripts, and any previous college credits you may have earned, and the Counselor will determine if you have met the qualification requirements to be placed on the waiting list for the ADN program.

   Initially, you will be admitted into the AAS.GT.HSNUR program (Associate in Applied Science General Technology program). While in the AAS.GT.HSNUR program you can take the General Education, or non-Nursing, classes required for the Nursing degree. Once you have been confirmed to enter, your program code will be changed to AAS.NUR (Associate in Applied Science with a Major in Nursing). Entry into the AAS.NUR program occurs only in the Fall semester.

   If you ARE qualified for the ADN waiting list:

   You will be required to pay the Cashier’s Office a $50 NONREFUNDABLE and NONTRANSFERABLE list processing fee in order to have your name placed on the list of qualified applicants. Students owing a past due debt to the College are not eligible to enroll. List processing fees will not be accepted until the prior debt is paid in full.

   If you ARE NOT qualified for the ADN waiting list:

   Your Counselor will review the necessary steps for you to take in order to become eligible to have your name placed on the list of qualified applicants for the ADN program. These steps are outlined next in Section II.
II. Qualification Requirements for the ADN Program

To be placed on the list of qualified applicants for the ADN program, you must provide documentation that you meet the following criteria:

1. High School or GED completion
   This can be in the form of an official high school transcript or an official GED score report.

2. Chemistry completion
   This requires a grade of “C” or better in a high school college-preparatory chemistry course or a college chemistry course.

3. Completion of TEAS with Composite score of ‘Proficient’ or better (no more than 3 years old)
   This requirement must be met, along with the additional criteria outlined in this packet, in order for a student to attain eligibility for the ADN program’s waiting list. The TEAS can be taken at York Technical College or an official score report can be sent to York Technical College.

4. Completion of Track 1 or Track 2 as described below:
   - **Track 1 – Submitting Qualifying SAT or ACT Scores (no more than 5 years old)**
     SAT Minimum score of **480 Reading and 540 Math** (no more than 5 years old)
     OR
     ACT minimum score of **21 English and 23 Math** (no more than 5 years old)
   - **AND** Minimum ADN program GPA of 2.00 in classes taken at York Technical College that can be applied towards the ADN program. **
   - **Track 2 – General Education/Elective Course Completion AND documentation of minimum reading requirement.**
     - This requires full completion of all general education courses required for the ADN program with a minimum ADN program GPA of **2.50**
     (Equivalent courses completed at other accredited colleges may transfer, but only courses completed at York Technical College are included in the GPA calculation.)
     - **Reading requirement may be fulfilled by documentation of one of the following:**
       - Minimum SAT Critical Reading of 480 (Not over 5 years old)
       - Minimum ACT English of 21 (Not over 5 years old)
       - Minimum COMPASS Reading of 88
       - Completion of RDG 101 with “C” or better

(continued on next page)
II. Qualification Requirements for the ADN Program (continued)

**Required General Education Courses for the ADN Program:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>*BIO 210 Anatomy &amp; Physiology I</td>
<td>*ENG 101 English Comp. I</td>
</tr>
<tr>
<td>*MAT 110 College Algebra</td>
<td>*BIO 211 Anatomy &amp; Physiology II</td>
</tr>
<tr>
<td>*ENG 102 English Comp. II</td>
<td>COL 101 College Orientation</td>
</tr>
<tr>
<td>*BIO 225 Microbiology</td>
<td>PSY 201 General Psychology</td>

<tr>
<td>1 Humanities/Fine Arts Elective (minimum 3 credit hrs)</td>
<td></td>
</tr>
<tr>
<td>1 General Elective (minimum 3 credit hrs)</td>
<td></td>
</tr>
</tbody>
</table>

*These courses require a minimum grade of “C” for the Nursing program

+ Required science courses that are more than 7 years old must be repeated OR exempted through testing (this does not affect your ability to be placed on the waiting list). Students are strongly encouraged to update expired BIO courses prior to beginning the Nursing program; however, those BIO courses not updated prior to beginning the Nursing program must be completed according to the York Technical College Suggested Plan of Study at [http://www.yorktech.edu/YTC_Suggested_Plans_of_Study(2014-2015).pdf](http://www.yorktech.edu/YTC_Suggested_Plans_of_Study(2014-2015).pdf).

### Approved General Electives

- AHS 102 / AHS 108 / AHS 117 / AHS 121
- AHS 135 / AHS 144 / CHM 101 / CPT 101
- ECO 210 / MAT 165 / AOT 105 / AOT 165
- PHS 101 / PHY 201 / PHY 202 / PSY 203
- PSY 212 / SOC 101 / SOC 102 / SOC 205
- SPC 205 / BIO 205

### Approved Humanities/Fine Arts Electives

- ART 101 / ENG 201 / ENG 202 / ENG 205
- ENG 206 / ENG 208 / ENG 209 / HSS 205
- HIS 101 / HIS 102 / HIS 201 / HIS 202
- MUS 105 / PHI 101

NOTE: Financial Aid can only pay for courses that count toward the student’s current, eligible, program of study. Consult with your assigned nursing advisor for appropriate electives.

Any and all electives completed from the lists above will be included in the GPA for the ADN program.

**Important Information for Students Who Have Been Previously Enrolled in the ADN program at York Technical College:**

Like a new applicant, you must meet all qualification criteria, including the appropriate minimum GPA requirements, to be placed on the waiting list. Please be aware that any and all coursework that you have taken that can be applied towards the ADN degree, including NUR courses, will be calculated into your ADN program GPA.

**Important information regarding the BIO 210, BIO 211 & BIO 225 course requirements for the ADN program:**

Students are limited to a maximum of 2 attempts per class at successful completion of BIO 210, BIO 211, and BIO 225. If a student has attempted any one of these classes and required more than 2 attempts in order to earn a grade of ‘C’ or better, they must wait 5 years from their last attempt to place their name on the ADN waiting list.

5. Meet with a Counseling and Support Services (CASS) Counselor to Get Your Name Placed on the Waiting List of Qualified Applicants.
III. Maintaining Your Position on the ADN Waiting List

Once you meet the qualification criteria and your name is placed on the ADN waiting list, you are responsible for maintaining eligibility for the ADN program. Please read the following steps very carefully so that you understand your responsibilities:

1. **Keep the Academic Record Office updated on your contact information**

   While your name is on the list of qualified applicants, it is your responsibility to let us know immediately if your address or phone information changes. Otherwise, we will be unable to contact you for any reason, including offering you a seat in the next available class.

2. **Maintain at Least a 2.00 ADN Program GPA**

   All students must maintain a minimum GPA of 2.00 in any required courses and electives for the ADN program in order to remain on the list of qualified applicants. Equivalent courses completed at other accredited colleges may transfer, but only courses completed at York Technical College are included in the GPA calculation. The Counseling and Support Services Office will check your GPA following each term you are on the list to verify that you remain eligible for the ADN program. **Should your GPA fall below 2.00 at any time your name is on the list, you will no longer be eligible and your name will be removed from the list.** If this occurs, you will be notified by mail.

   You may use **Web Advisor** to determine your ADN Program GPA by following these directions:
   - Click **Web Advisor** on the York Technical College Homepage
   - Log in using your student username and password
   - Click on the **Students** tab
   - Under **Educational Information**, click **Program Evaluation**
   - Click the drop-down box beside “**What if I changed my program of study**”
   - Choose your goal program and **OK**:
     - **Nursing** = Associate in Applied Science – Nursing Major
   - Choose the **latest** Catalog Year and **Submit**
   - Students whose **Program GPA** falls below a 2.00 at any time are no longer eligible for entry into their program. Students who are no longer qualified for their program will be notified by mail.

3. **Complete BIO 210, BIO 211, and BIO 225 with grade of ‘C’ or better in no more than 2 attempts per class**

   If, while on an ADN waiting list, a student attempts to complete BIO 210, BIO 211 and/ or BIO 225 and they exceed the allowed number of attempts, their name will be removed from the ADN program waiting list. A student whose name is removed from the list due to exceeding the allowed number of attempts to complete either BIO course must wait 5 years from the last attempt to place their name back on the waiting list. **NOTE:** Unsuccessful completion of one of these courses is defined as a student enrolling in the course and earning a grade of ‘W’, ‘D’, ‘WF’, or ‘F’.

9
IV. When You Are Offered Entry Into the ADN Program

Please be prepared for the following to occur when your name comes up to begin the ADN program:

1. Notification of entry
   You will be notified by first class mail that your name has come up to begin the program. When you receive your letter offering you a seat for your program, you will have two choices. If you do not respond by either method below before the specified deadline, your name will be removed from the list.

   a. To accept your seat, pay your confirmation deposit ($100) by the specified deadline to be eligible to enter the program that year. This deposit is NONREFUNDABLE and NONTRANSFERABLE and applies toward the tuition/fees for your first semester. Students owing a past due debt to the College are not eligible to enroll. Deposits will not be accepted until the prior debt is paid in full.

   b. If you wish to postpone your entry to the program, pay an additional non-refundable/nontransferable list processing fee ($50) by the specified deadline to keep your name on the list for the following year. If you choose this option, you must accept your seat the following year or your name will be removed from the waiting list. You have the opportunity to delay your entry only once.

If for any reason you choose not to enter the program after paying the $100 deposit, you may stay on the list by paying another $50 list processing fee which will be due within one month of the date you notify the program monitor of this decision. Again, you can delay your entry only once. If you do pay your $100 deposit but find you cannot start you may pay another $50 list processing fee (one time only) to remain on the top of the list. Another $100 deposit will be required to obtain entry into the next year’s class.

You are responsible for making sure that you are able to receive this information. This includes keeping us updated on any changes to your contact information AND making sure that all members of your household are aware that you may be receiving an important letter. You do not want to lose your place in the class because you miss your invitation to begin.

As the start date for the Fall class gets closer, it may become necessary for the Counseling and Support Services Office to attempt telephone contact with the next qualified student on the list in order to replace a student who withdraws at the last minute or fails to register for classes. In this situation, time does not allow for the regular mail confirmation process to occur.

2. Pay your deposit and fulfill additional requirements before starting the ADN program
   a. You will need to submit a completed Student Health Form (available in Room A-100) on the first day of class of your nursing program.

   b. You must carry liability insurance and health insurance. Liability insurance is paid at the York Tech Cashier’s Office. You must submit proof of health insurance on the first day of class. This may be obtained through www.healthcare.gov or submit evidence of private insurance coverage.

   (continued on next page)
IV. When You Are Offered Entry Into the ADN Program (continued)

c. Clinical facilities require clear **drug screens** and **criminal background checks** before allowing students to participate in clinical rotation. You will be financially responsible for these items. You may be required to have a drug screen at any time during your rotations. **You must be eligible to attend clinical at all facilities the nursing program uses.**

d. **You must attend a required ADN program orientation** to be held prior to the Fall semester.

3. **Please note the following information in preparation for entry into the Nursing program:**
   
   A. All students should submit their FAFSA financial aid form each year in anticipation of entry into the program. Please see details regarding financial assistance on page 14 of this brochure, and contact the Financial Resources Office at 803-327-8005 for additional assistance.

   B. Students who are ineligible to register for classes at York Technical College due to Academic Suspension will not be permitted to register for Nursing (NUR) classes even if their name has come up on the waiting list for entry into the Nursing program. Before accepting your offer of entry, you should ensure that you will be in “Good Standing” at York Technical College in time to register for Fall semester classes. If a student determines they are on Academic Suspension after paying the $100 Deposit to accept their offer of entry, they should contact the Counseling and Support Services Office immediately to discuss their options.
V. Frequently Asked Questions About the ADN Program

Q. How long is the waiting list for the Nursing program?
A. Be aware that there is typically a waiting period of approximately 1 year from the time a student gets on the waiting list until the Fall term that the student will actually begin the program.

Q. Can I get on the waiting list before I meet the minimum qualification requirements?
A. No. You must fully meet the qualification requirements for the ADN program as outlined in this document before you can be placed on the list.

Q. Can I be on more than one Health and Human Services program waiting list?
A. Yes. However, you are encouraged to choose one goal and place your emphasis toward meeting that goal. All Health and Human Services programs are very different and prepare students for specific careers. It would be unwise to choose a program based solely upon which one you could gain access to first. In addition, for every program list, you must pay a NONREFUNDABLE/NONTRANSFERABLE list processing fee of $50.

Q. If I have at least a Bachelor’s degree, am I still required to submit copies of my SAT or ACT scores and my high school diploma/transcript as well as my college transcripts?
A. Yes. You must provide documentation that you meet the qualifications as specified in this booklet.

Q. Can I be placed higher on the list if I have an advanced degree or a higher grade point average than some of the others on the list?
A. No. The waiting list is handled strictly on a first-qualified, first served basis.

Q. I have the necessary SAT/ACT scores to qualify for the waiting list. Do I still need to take the general education courses?
A. Yes. The general education courses are part of the ADN program requirements necessary to graduate.

Q. Is the TEAS test mandatory?
A. Yes. You must score a proficient. If you have previously taken the TEAS test, it can be no more than 3 years old to meet list placement requirements.

Q. If I am already an LPN, or if I’ve already completed at least one year of Nursing coursework at another college, can I enter directly into the second year of the ADN program?
A. You may find the detailed policy on LPN/ADN transition in the Nursing information section of the York Technical College Catalog and Handbook as well as on the York Technical College website. Go to www.yorktech.edu.

After reviewing this policy, if you have additional questions, please contact the Counseling and Support Services Office at 803-327-8007.

(continued on next page)
Q. When and how often do you start a new Nursing class at York Technical College, and how long does the program last?
A. The Nursing program begins once a year in the Fall semester, and lasts for 5 consecutive semesters, or 2 years.

Q. How are classes scheduled?
A. The general education classes can be taken part-time or full-time, day or evening, and a few are available through alternative delivery methods such as by internet. Once you are in your Nursing classes, however, the schedule becomes much less flexible. Nursing classes include campus and clinical laboratory hours. Students are required to drive to a variety of clinical agencies to complete the clinical component of the Nursing courses. Students may be assigned to morning, afternoon, or evening clinical experiences anywhere in the tri-county area. Clinical experiences may range from 8-12 hours per clinical day. Students must drive to USC-Lancaster and York Tech campuses for classes.

Q. What is the grading scale once I am in the Nursing program?
A. The grading scale for the Nursing (NUR) classes is as follows: A = 91-100; B = 86-90; C = 80-85; D = 70-79; F = 69 or below. Nursing students must make a grade of “C” or better in theory in each Nursing course attempted and receive a clinical evaluation of “Satisfactory.”

**NOTE:** In order to progress in the program, all Nursing students must demonstrate math competency by passing the Drug Dose Competency Exam in each of the following courses: NUR 159, NUR 211, NUR, 214, 219, NUR 209, and NUR 229. Details regarding this requirement will be provided in each course syllabus at the time that students enter these courses.

Q. Can I work while I am enrolled in the Nursing program?
A. Yes, but…The Nursing program is quite rigorous and demanding and includes many class hours, clinical rotations and outside assignments. Your probability of success can decrease significantly with the addition of outside work responsibilities. Once enrolled in the Nursing program, you should consider limiting your work schedule to allow for the demands of the program.

Q. Do I have to be enrolled in courses to remain on the Nursing waiting list?
A. No. Your name will not be removed from the waiting list unless you 1) allow your program GPA to fall below a 2.00; 2) request to have your name removed from the waiting list; or 3) fail to respond to the certified letter offering you a seat for the program.

Q. What types of expenses can I expect once I am in the Nursing program?
A. Please see the Estimated ADN Program Expenses sheet in the back of this document.
Q. What types of financial assistance are available to me?
A. York Technical College participates in the following programs:
   - Federal Pell Grant (FPELL)
   - Federal Supplemental Educational Opportunity Grant (FSEOG)
   - Federal Work-Study Program (FWS)
   - Federal Academic Competitiveness Grant
   - SC Need-Based Grant (SCNBG)
   - LIFE Scholarship (LIFE)
   - Lottery Tuition Assistance (LTA)
   - Scholarships
   - Special Grants and Sponsorships
   - Stafford Loans
   - Springs Foundation Loan
   - Alternative Student Loans
   - Tuition Payment Plan (TPP)

To apply for other types of financial assistance, including scholarships and special grants, various applications are required. Contact the Financial Resources Office, which is located in the Student Services Building, for more information.

Q. Once I obtain financial aid, can I be assured that I will receive it throughout my enrollment in the program?
A. Financial aid is typically awarded on an annual basis. Students are required to reapply for aid each academic year. Each type of financial aid has specific continuing eligibility guidelines that must be met. You are responsible for understanding these guidelines for each type of aid you are receiving.

Those students who receive FPELL and FSEOG need to be aware of the Federal Aid Eligibility Limit. Students receiving Federal financial aid may only receive aid for one and one-half times, or 150% of, the length of their academic program. This means that students enrolled in AAS.GT.HSNUR (Associate in Applied Science with a goal of Nursing) are limited to receiving financial aid for up to 99 attempted credit hours, and students enrolled in Nursing (Associate in Health Science with a Major in Nursing) are limited to receiving financial aid for up to 102 attempted credit hours.

Many students enrolled in the AAS.GT.HSNUR program have Nursing as their goal program, and are receiving FPELL and FSEOG, and want to remain actively enrolled in coursework after they have completed their general education courses, and want to take additional courses while waiting to start the AAS.NUR program. These students need to be careful that they do not exhaust their eligible funds prior to completion of the Nursing program.

For more information about this or other financial aid issues, please contact the Financial Resources Office, which is located in the Student Services Building, for more information.
Q. How can I obtain more detailed information about the York Technical College Nursing program?
A. You may visit the Nursing Degree information section of the York Technical College website to obtain a more comprehensive description of the program, schedule, requirements, transfer, retention and promotion policies. Follow the instructions below:

- Go to www.yorktech.edu
- Place cursor over Academics
- Click on Academic Departments and Programs
- Scroll down and click on Health and Human Services
- Click on Nursing

Additional detailed information about our Nursing program can be found in our York Technical College Catalog and Handbook and can be viewed online at our website.
